

MEGHANA GUTHI

Tirupati, India | +91 9030740961 | megha.2203.megha@gmail.com | LinkedIn  | GitHub  | LeetCode 

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in **Java**, **AWS** serverless application development, and **cloud-native** software solutions. Strong foundation in **Data Structures & Algorithms**, **object-oriented design**, **concurrency**, and scalable software engineering.

EDUCATION

Mohan Babu University Bachelor of Technology – Computer Science and Engineering: CGPA 9.6	Tirupati, India Aug 2024 – May 2028
Narayana Junior College Percentage: 98%	Hyderabad, India June 2022 – May 2024

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, HTML, CSS
- **DSA:** Arrays, Linked Lists, Trees, Graphs, Recursion, Dynamic Programming, Searching, Sorting
- **Concurrency:** ThreadPoolExecutor, StampedLock, Semaphore, ReadWriteLock, Synchronization, Multithreading
- **Cloud:** AWS Lambda, S3, DynamoDB, API Gateway, IAM, Serverless Architecture, EC2
- **Databases:** MySQL, JDBC, DAO Pattern
- **Systems:** Linux/Unix (basic command line, navigation, file systems)
- **Concepts:** OOP, REST APIs, Computer Networks
- **Tools:** Git, GitHub, IntelliJ IDE, Eclipse IDE, Microsoft Excel (Pivot Tables, VLOOKUP, basic formulas)

EXPERIENCE

- **Technical Intern** | AatonovaZ Technologies Private Limited Aug 2026 – Present
 - Working with the Engineering & Research team on GarudaOne, an autonomous AI-powered aerial camera drone, contributing to software development, computer vision, and automation workflows.
 - Supporting prototyping, technical research, and testing across AI/ML and embedded systems, including troubleshooting and debugging issues identified during testing within a fast-moving deep-tech robotics startup.
- **Research Intern** | Mohan Babu University Mar 2025 – Apr 2025
 - Developed Java-based modules to analyze 120,000+ kWh institutional energy data across HVAC, lighting, computing, and IoT infrastructure; implemented load factor and utilization analysis algorithms and generated technical reports on inefficiencies.

PROJECTS

- **TalentReach – Serverless Job Application Portal** | AWS Lambda, S3, DynamoDB, API Gateway, HTML, CSS 2026
Github 
 - Designed and implemented a fully serverless application architecture using AWS services (Lambda, S3, DynamoDB, API Gateway) with automatic scaling and pay-per-use infrastructure.
 - Built a multi-step job application workflow with resume uploads, an admin dashboard (search, filtering, analytics), and REST-style backend integrations.
- **Student Management System** | Java, JDBC, MySQL 2026
Github 
 - Developed a database-driven CRUD application using Core Java, JDBC, MySQL, DAO pattern, and PreparedStatements, with modular exception handling and validation.
- **The Case File – Multi-Agent AI Investigation Platform** | FastAPI, LangGraph, Groq Llama 3.3, Cogne, SSE 2026
Built for WeMakeDevs × Cogne Hackathon 2026, Team FEMTECH | Github 
 - Co-built a multi-agent AI investigation system (Detective, Analyst, Chief agents) orchestrated via LangGraph, integrating Cogne's hybrid graph-vector memory for cross-case contradiction detection.
 - Built a FastAPI backend with Server-Sent Events for real-time agent streaming, and authored a technical blog on the system's architecture and design.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Generative AI Professional
- JPMorgan Chase Software Engineering Job Simulation (Forage), 2026
- Google × Kaggle AI Agents Intensive Course

ACHIEVEMENTS

- Google Student Ambassador, 2026
- LeetCode & HackerRank: Solved 170+ DSA problems on LeetCode and additional programming challenges on HackerRank
- Project Expo – Technovation 2K25: Secured 2nd Place
- Co-Founder: Tech Fusion Track, CETA Club
- Team Lead: XHORIZON 24-Hour Hackathon
- GitHub: 43+ public repositories

LANGUAGES

- **Telugu:** Native
- **English:** Fluent
- **Hindi:** Intermediate
